

BRIQUETTE

CUM PELLET MACHINE DUAL FEED COMBO

The Jagatjit Dual Combo Machine is an advanced briquetting and pelletizing system that can produce both biomass briquettes and pellets from agricultural and forest residues. Ideal for commercial and industrial applications, the Dual Combo Machine offers superior flexibility in fuel production, ensuring sustainable energy solutions.

Model	Production Capacity	Power Required
JBM 70DFC	upto -700kg/hr Pellet / upto 1500kg/hr Briquette	61 hp/45.48kW
JBM 90DFC	upto -1300kg/hr Pellet / upto 2200kg/hr Briquette	93 hp/70.09kW

Our Product Range

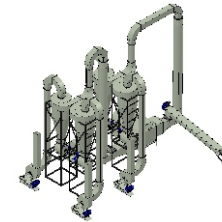

Briquette Machine
upto 2000 kg/hr
(Production Range)

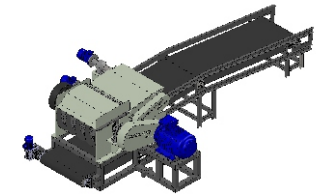

Hammer Mill
upto 5000 kg/hr
(Production Range)

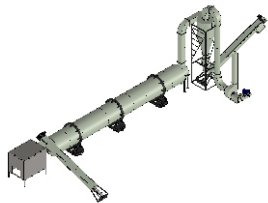

Single Pass Flash Dryer
upto 4000 kg/hr
(Production Range)

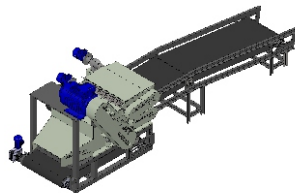

Double Pass Flash Dryer
upto 4000 kg/hr
(Production Range)

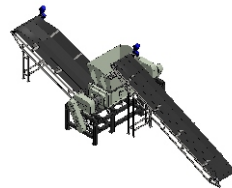

Chipper Grinder
upto 5000 kg/hr
(Production Range)

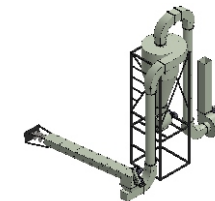

Rotary Drum Dryer
upto 5000 kg/hr
(Production Range)

Sawdust Making Machine
upto 5000 kg/hr
(Production Range)

Dual Shaft Shredder
upto 6000 kg/hr
(Production Range)

Pneumatic Stone Separator
upto 4000 kg/hr
(Production Range)

Vertical Ring Die (Pellet Machine)
upto 2000 kg/hr
(Production Range)
